Training and Supervision

Interested volunteers will come and serve in the check in areas to get a sense of how everything flows and to help determine if this area fits best with their giftings. Once this is decided, all volunteers will complete a background check and will work with a Children’s Ministry Director to be placed on the schedule. Volunteers will be provided opportunities for leadership development throughout the year (videos, in-person training, one on one).

Background Check

A cleared background check is required.
